CHAPTER 5 PERFORMANCE MEASUREMENT AND ASSESSMENT

Assessment measures are commonly divided into two types: Measure of Performance (MOP) — A criterion used to assess friendly actions that are tied to measuring task accomplishment. Measure of Effectiveness (MOE) — A criterion used to assess changes in system behavior, capability, or operational environment that is tied to measuring the

Measure of Performance (MOP) — Measure of Effectiveness (MOE)

MOP: A measure of performance is a criterion used to assess friendly actions that is tied to measuring task accomplishment (JP 3-0). At the most basic level, every Soldier assigned a task maintains a formal or informal checklist to track task completion. The items on that checklist are measures of performance.

Assessment: measures of performance and measures of ...

Importantly, performance measures are data – they quantitatively measure the agency/division/ program’s performance. The following Data Quadrant is a useful tool for sorting and categorizing performance measures. All performance measures fit into one of four categories. The categories, the four quadrants, are derived from the intersection of quantity and quality and effort and effect.

Example Performance Measures for Your Program or Service

Under the TAM Final Rule, FTA established four performance measures to approximate the State of Good Repair (SGR) for four categories of capital assets. Calculating performance measures helps transit agencies to quantify the condition of their assets, which facilitates setting targets that support local funding prioritization.

Performance Management | FTA - Transportation

Summative assessments - tests, quizzes, and other graded course activities that are used to measure student performance. They are cumulative and often reveal what students have learned at the end of a unit or the end of a course. Within a course, summative assessment includes the system for calculating individual student grades.

Measuring Student Learning | Center for Teaching Innovation

Performance Measures Each performance objective should be supported by at least one measure that will indicate an organization’s performance against that objective. Measures should be precisely defined, include

the population to be measured, the method of measurement, the data source, and the time period for the measurement.

Performance Measurement and Management Program Guide
