### | Quizlet

Evolution does say  
MANY MANY things  
about biology and  
primates In fact,  
evolution is based  
upon science concepts  
like biology and the  
progression of where  
primates came from.  
I'm not sure who or  
where you are getting  
your information from,  
but I would suggest  
you read a book more  
often, it could also help  
with your grammar.
