ASH Clinical Practice Guidelines on Acute Myeloid Leukemia in Older Adults. The American Society of Hematology 2020 Guidelines for Treating Newly Diagnosed Acute Myeloid Leukemia in Older Adults, developed in partnership with the McMaster GRADE Centre, offer treatment recommendations for this vulnerable population based on rigorous, systematic reviews of all available evidence.

Acute Myeloid Leukemia Guidelines - Hematology.org

The practice of whole blood transfusion has largely been replaced by component therapy. However, some blood centers are able to offer whole blood or "modified" whole blood (whole blood minus the platelet component) for the treatment of large-volume blood loss. Its use can save time, cost less, and expose the recipient to fewer donors.
