Research Paper on Vermiculture and Vermicomposting

The practice of vermiculture is at least a century old but it is now being revived worldwide with diverse ecological objectives such as waste management, soil detoxification and regeneration and sustainable agriculture. Earthworms act in the soil as aerators, grinders, crushers, chemical degraders and biological stimulators. They secrete enzymes, proteases, lipases, amylases, cellulases and ...

Vermiculture and waste management: study of action of ...

research on waste management include studies on the vermicomposting of MSW, agricultural and industrial waste, clean disposal and harm effects mitigation [6], [25], [26]. Research on environmental bioremediation focuses on using earthworm for remediation from different harmful materials for example using the vermicompost as an agent

Vermicomposting of Organic Waste : Literature Review

Vermiculture Technology Vermiculture Technology Vermiculture technology, also referred to as vermicomposting, worm humus, worm compost or worm casting is a technique of producing rich fertilizer from household wastes by using worms, bacteria and microbes as the decomposing agents (Beetz, 2008).

International Journal of Scientific and Research Publications, Volume 3, Issue 3, March 2013 2 ISSN 2250-3153 www.ijsrp.org soil, surface and below ground of the vermicasts, middens, burrows and diapause chambers. Earthworms prefer to consume a mixture of soil and organic matter over pure organic matter.

A Review on Potential of Vermicomposting Derived Liquids ...

research paper on vermiculture and vermicomposting 1. 1 research paper on vermiculture and vermicomposting undertaken by bachelor of secondary education, biological science major third year students at ramon magsaysay technological university, san marcelino, zambales danilo v. rogayan jr.

Research Paper On Vermiculture And Vermicomposting Undertaken

Future research must be focused on the development of high rates of vermicomposting directly without any supplementation and on proficiency in the technology. In-depth research is required to study the composition of immature vermicompost and its application failure and to determine vermicompost concentrations under typical soil-water plant-micrometeorologic regimes.

Vermicomposting - an overview | ScienceDirect Topics

Vermiculture or worm farming is the utilization of some species of earthworm such as Eisenia Fetida (commonly known as red wiggler, brandling, or manure worm.), E. foetida and Lumbricus Rubellus to make vermicompost which is a nutrient rich, natural fertilizer and soil conditioner which is the end-product of the breakdown of organic matter. The African Night Crawler is the most recommended ...

Vermiculture - Term Paper

Yeah, also I am going to try isopods on paper. I ran whole potatoes through my garbage disposal set up. I know isopods love potatoes. But they told all their friends. Never saw a herd of them like that before. Looked like a trail of ants! You may be able to utilize potato juice on paper. And supposedly isopods have the ability to remove heavy metals. I'm no expert. So do the research on these little guys!
